

Multimedia board game reflection:

Now that you have completed your board game it is time to reflect on how things went. To help you with this process please answer the following questions.

1. What is your favorite part of your project?
2. If you could start over again, what is one thing you would do differently?
3. In at least 2 sentences, please describe what your game is about.
4. List the names of all your group members (including yourself) and rate them on a scale from 1-10. Then write a minimum of 2 sentences for each person explaining why you gave them that score.
